

////////////////////// **TABLE OF CONTENTS** ////////////////////////

UNIT ONE: INTRODUCTION TO THE STUDY OF THE ENVIRONMENT

Chapter 1: Characteristics of Living Things	1
A. Biology and the Living Environment	1
B. What is Science	1
C. Scientific Inquiry	2
D. Branches of Biology	4
Laboratory Investigation: A Controlled Experiment	5
Review Activities:	
Important Terms	7
Skill Practice	9
Chapter 1: Quiz	11
Chapter 2: The Biology Laboratory	13
A. Safety in the Laboratory	13
B. Identifying Laboratory Apparatus	14
C. Measurement in the Laboratory	16
D. Prefixes	16
E. Measuring Volume	17
F. Measuring Length	18
G. Measuring Weight (Mass)	18
H. Measuring Temperature	19
I. Organization and Interpretation of Data	20
Laboratory Investigation: Laboratory Materials	25
Review Activities:	
Important Terms	27
Skill Practice	28
Chapter 2: Quiz	29
Unit 1: Test	31

UNIT TWO: SIMILARITIES AMONG LIVING THINGS

Chapter 3: Characteristics of Living Things	35
A. Defining Life	35
B. Nutrition	36
C. Transport	37
D. Respiration	37
E. Excretion	38
F. Regulation	38
G. Synthesis	38
H. Growth	39
I. Locomotion	39
J. Reproduction	39
K. Metabolism and Homeostasis	40
Laboratory Investigation: Living and Nonliving Things	41
Review Activities:	
Important Terms	43
Skill Practice	45
Crossword Puzzle	46
Chapter 3: Quiz	47

Chapter 4: Cell Theory and Cell Study	49
A. The Cell Theory	49
B. Exceptions to the Cell Theory	49
C. History of Cell Study	50
D. The Compound Light Microscope	51
E. Staining Techniques	53
F. The Dissecting Microscope	54
G. The Electron Microscope	54
H. The Ultracentrifuge	55
I. Magnification in Cell Study	55
J. Measurement in Cell Study	56
Laboratory Investigation: The Compound Microscope	57
Review Activities:	
Important Terms	59
Skill Practice	61
Chapter 4: Quiz	63
Chapter 5: Cell Structure and Function	65
A. Organelles	65
B. Cell Membrane	66
C. Cytoplasm	67
D. Nucleus	68
E. Chromosomes	68
F. Mitochondria	68
G. Endoplasmic Reticulum	70
H. Ribosomes	70
I. Golgi Complex	70
J. Vacuoles	71
K. Lysosomes	71
L. Chloroplasts	71
M. Centrioles	72
N. Cell Wall	73
O. Comparison of Plant and Animal Cells	73
P. Cell Specialization	74
Q. Cell Organization	75
Laboratory Investigation: Observing Cell Structure	77
Review Activities:	
Important Terms	79
Skill Practice	81
Chapter 5: Quiz	83
Chapter 6: Chemistry of Living Things	85
A. Basics of Chemistry	85
B. The Atom	85
C. Elements	86
D. Compounds	87
E. Molecules	88
F. Ions	88
G. Covalent Bonds	88
H. Formulas	89
I. Equations	89
J. Organic and Inorganic Compounds	90
K. Carbohydrates	91
L. Monosaccharides	91
M. Disaccharides	92
N. Polysaccharides	92
O. Lipids	93

P. Proteins	94
Q. Enzymes	95
R. Nucleic Acids	96
S. The pH Scale	96
Laboratory Investigation: Molecular Models	97
Review Activities:	
Important Terms	99
Skill Practice	101
Crossword Puzzle	102
Chapter 6: Quiz	103
Unit Two Test	105

UNIT THREE: HUMAN BIOLOGY

Chapter 7: Nutrition	109
A. Importance of Nutrition	109
B. Food and Nutrients	109
C. Carbohydrates	110
D. Fats and Oils	111
E. Proteins	111
F. Vitamins	112
G. Minerals	116
H. Water	117
I. Roughage	117
J. Calories and Food	117
K. Calories and You	119
L. A Balanced Diet	121
M. Nutrition and Health	123
N. Eating Disorders	124
Laboratory Investigation: Nutrient Testing	125
Review Activities:	
Important Terms	127
Skill Practice	129
Chapter 7: Quiz:	131
Chapter 8: Digestion	133
A. Introduction	133
B. Mechanical and Chemical Digestion	133
C. The Alimentary Canal	134
D. The Stomach	136
E. Small Intestine	137
F. Large Intestine	138
G. End Products of Digestion	138
H. Digestive System Disorders	139
Laboratory Investigation: Digestive Organs	141
Review Activities	
Important Terms	143
Skill Practice	145
Crossword Puzzle	146
Chapter 8: Quiz	147
Chapter 9: Transport	149
A. Introduction	149
B. Circulation	149
C. The Heart	151
D. Blood Vessels	151

E. Arteries	152
F. Capillaries	152
G. Veins	153
H. Composition of Blood	153
I. Red Blood Cells	154
J. Platelets	155
K. White Blood Cells	155
L. Lymph and Lymph Vessels	156
M. Immunity	156
N. Active Immunity	157
O. Passive Immunity	158
P. Blood Typing and Transfusions	158
Q. Transport System Disorders	159
Laboratory Investigation: Observing Blood Cells	161
Review Activities	
Important Terms	163
Skill Practice	165
Chapter 9: Quiz	167
Chapter 10: Respiration	169
A. Introduction	169
B. The Human Respiratory System	169
C. Breathing	171
D. Cellular Respiration	172
E. Respiratory System Disorders	174
Lab Investigation: Smoking and Lung Disease	175
Review Activities	
Important Terms	177
Skill Practice	179
Chapter 10: Quiz	181
Chapter 11: Excretion	183
A. Excretion	183
B. Metabolic Waste	183
C. The Role of Blood in Excretion	183
D. The Excretory System	184
E. Skin	184
F. Lungs	185
G. Human Urinary System	185
H. Liver	186
I. Excretory System Disorders	187
Laboratory Investigation: Excretory Structures	189
Review Activities	
Important Terms	191
Skill Practice	193
Chapter 11: Quiz	195
Chapter 12: Regulation	197
A. Regulation	197
B. Nerve Regulation	197
C. Human Nervous System	198
D. Nerve Cells	198
E. Nerves	199
F. The Brain	200
G. The Spinal Cord	200
H. Receptors	201
I. Involuntary Behavior	201
J. The Reflex Arc	202
K. Voluntary Behavior	203

L. Nervous System Disorders	203
M. Effect of Drugs on the Nervous System	204
N. Chemical Regulation	206
O. Human Endocrine System	206
P. Human Endocrine Glands	207
Laboratory Investigation: Testing Taste Buds	209
Review Activities:	
Important Terms	211
Skill Practice	213
Chapter 12: Quiz	215
Chapter 13: Locomotion	217
A. Locomotion	217
B. Bones	217
C. Human Endoskeleton	218
D. Cartilage	219
E. Joints	219
F. Muscles	220
G. Involuntary Muscles	220
H. Voluntary Muscles	221
I. Muscle Action	222
J. Tendons and Ligaments	222
K. Muscle-Bone Disorders	223
Laboratory Investigation: Locomotion Structures	225
Review Activities:	
Important Terms	227
Skill Practice	229
Crossword Puzzle	230
Chapter 13: Quiz	231
Unit Three Test	233

UNIT FOUR: DIVERSITY AMONG LIVING THINGS

Chapter 14: Classification of Living Things	237
A. Need for Classification	237
B. Basis for Classification	238
C. Modern System of Classification	238
D. Subdivision of Kingdoms	240
E. Scientific Names	241
Lab Investigation: Classification	243
Review Activities:	
Important Terms	245
Skill Practice	246
Chapter 14: Quiz	247
Chapter 15: Simple Organisms	249
A. Introduction	249
B. Viruses	249
C. Bacteria	250
D. Beneficial and Harmful Bacteria	251
E. Fungi	252
F. Algae	253
G. Economic Importance of Algae	254
H. Protozoa	254
I. Life Functions of Protozoa	255
J. Protozoa and the Environment	257
Laboratory Investigation: Protists	259

Review Activities:	
Important Terms	261
Skill Practice	263
Crossword Puzzle	264
Chapter 15: Quiz	265
Chapter 16: Multicellular Plants	267
A. General Characteristics	267
B. Vascular and Nonvascular Plants	267
C. Insectivorous Plants	269
D. Photosynthetic Plants	269
E. Chemistry of Photosynthesis	271
F. Plant Stems	272
G. Plant Roots	274
H. Transpiration and Transpirational Pull	275
I. Respiration and Excretion	275
J. Chemical Control in Plants	276
K. Economic Uses of Plants and Plant Products	277
Laboratory Investigation: Plant Parts as Food	279
Review Activities:	
Important Terms	281
Skill Practice	283
Chapter 16: Quiz	285
Chapter 17: Multicellular Animals	287
A. General Characteristics	287
B. Invertebrates	287
C. Vertebrates	294
D. Economic Uses of Animals and Animal Products	300
Laboratory Investigation: Vertebrates and Invertebrates	301
Review Activities:	
Important Terms	303
Skill Practice	305
Crossword Puzzle	306
Chapter 17: Quiz	307
Unit Four Test	309

UNIT FIVE: REPRODUCTION AND DEVELOPMENT

Chapter 18: Cell Reproduction	313
A. Need for Reproduction	313
B. Cell Division	314
C. Mitosis	314
D. Stages of Mitosis	315
E. Interphase	316
F. Prophase	316
G. Metaphase	317
H. Anaphase	317
I. Telophase and Cytoplasmic Division	318
J. Comparison of Mitosis in Plant and Animal Cells	318
K. Meiosis	319
L. Comparison of Mitosis and Meiosis	320
Laboratory Investigation: Observing Animal Mitosis	321
Review Activities:	
Important Terms	323
Skill Practice	325
Chapter 18: Quiz	327

Chapter 19: Asexual Reproduction	329
A. Asexual Reproduction	329
B. Binary Fission	329
C. Budding	330
D. Sporulation	330
E. Regeneration	331
F. Vegetative Propagation	331
Lab Investigation: Bread Mold Reproduction	333
Review Activities:	
Important Terms	335
Skill Practice	336
Chapter 19: Quiz	337
Chapter 20: Sexual Reproduction in Animals	339
A. Sexual Reproduction	339
B. Gametogenesis	339
C. Fertilization	341
D. Embryonic Development	342
E. External Development	343
F. Internal Development	345
G. Placental Mammals	345
Laboratory Investigation: Embryology	347
Review Activities:	
Important Terms	349
Skill Practice	351
Crossword Puzzle	352
Chapter 20: Quiz	353
Chapter 21: Human Reproduction	355
A. Puberty	355
B. Human Male Reproductive System	355
C. Human Female Reproductive System	356
D. Fertilization	357
E. Prenatal Development and Birth	358
F. Postnatal Development	359
G. The Menstrual Cycle	359
H. Human Reproductive Disorders	360
Laboratory Investigation: Human Reproductive Cells	361
Review Activities:	
Important Terms	363
Skill Practice	365
Chapter 21: Quiz	367
Chapter 22: Reproduction in Flowering Plants	369
A. Flowering Plants	369
B. Flower Structure	369
C. Pollination	371
D. Fertilization	371
E. Structure of Seed and Embryo	372
F. Seed Dispersal	373
G. Seed Germination and Growth	374
Laboratory Investigation: Flower Structure	375
Review Activities:	
Important Terms	377
Skill Practice	379
Crossword Puzzle	380
Chapter 22: Quiz	381
Unit Five Test	383

UNIT SIX: GENETICS AND HEREDITY

Chapter 23: Basic Genetics	387
A. What is Genetics	387
B. Variation	387
C. Species and Chromosome Number	388
D. Chromosome Arrangement	389
E. Gene-Chromosome Theory	390
F. Inheritance of Traits	391
G. Mendel’s Experiments	391
H. Genetic Terms	395
I. Symbols	395
J. Predicting Genetic Results	396
Laboratory Investigation: Testing Probability Laws	401
Review Activities:	
Important Terms	403
Skill Practice	405
Crossword Puzzle	406
Chapter 23: Quiz	407
Chapter 24: Going Further In Genetics	409
A. Test Cross	409
B. Dihybrid Cross	410
C. Gene Linkage and Crossing-Over	411
D. Incomplete Dominance	412
E. Multiple Alleles	414
F. Inheritance of Sex	414
G. Sex-Linked Inheritance	415
Laboratory Investigation: Inherited Human Traits	417
Review Activities:	
Important Terms	419
Skill Practice	421
Chapter 24: Quiz	423
Chapter 25: Modern Genetics	425
A. Chemical Basis for Genetics	425
B. Nucleotides	425
C. DNA Structure	426
D. DNA Replication	426
E. RNA	428
F. The Genetic Code	428
G. Protein Formation	429
H. Mutations	430
I. Human Inheritance	431
J. Human Genetic Diseases	433
K. Heredity and the Environment	435
L. Genetic Engineering	435
Laboratory Investigation: Constructing DNA Models	437
Review Activities:	
Important Terms	439
Skill Practice	441
Chapter 25: Quiz	443
Unit Six Test	445

UNIT SEVEN: EVOLUTION OF LIVING THINGS

Chapter 26: Evidence for Organic Evolution	449
A. What is Evolution?	449
B. Geologic Time	450
C. Fossil Evidence	452
D. Skeletal Evidence	453
E. Vestigial Structures	454
F. Comparing Cell Structure	454
G. Comparing Embryos	454
H. Similarities in Biochemistry	455
I. Examples of Evolution	455
Laboratory Investigation: Types of Fossilization	457
Review Activities:	
Important Terms	459
Skill Practice	461
Crossword Puzzle	462
Chapter 26: Quiz	463
Chapter 27: Theories on Origin and Change	465
A. Change Over Time	465
B. Spontaneous Generation	466
C. Use and Disuse	466
D. Disproving Lamarck's Theory	467
E. Darwin's Theory	467
F. Comparing Lamarck and Darwin	468
G. Mutation Theory	470
H. Modern Theory	470
I. Evolution in Our Time	471
J. Geographic Isolation	473
K. Adaptive Radiation	474
L. Rate of Change	475
M. Heterotroph Hypothesis	476
N. Human Evolution	477
Laboratory Investigation: Adaptations	479
Review Activities	
Important Terms	481
Skill Practice	483
Chapter 27: Quiz	485
Unit Seven Test	487

UNIT EIGHT: LIVING THINGS AND THEIR ENVIRONMENT

Chapter 28: Organization of the Environment	491
A. Ecology	491
B. Requirement for Stable Ecosystems	492
C. Abiotic Factors	493
D. Biotic Factors	494
E. Habitats and Niches	495
F. Biomes	495
G. Land Biomes	496
H. Water Biomes	498
I. Preserving Diversity of Species and Habitats	500
Laboratory Investigation: Ecosystems	501
Review Activities:	
Important Terms	503
Skill Practice	505
Chapter 28: Quiz	507

Chapter 29: Organization of the Environment	509
A. Food Relationships	509
B. Symbiotic Relationships	510
C. Food Chains	511
D. Food Webs	512
E. Pyramid of Energy	513
F. Pyramid of Biomass	514
G. Materials Cycles	515
H. Ecological Succession	516
I. Climax Communities	517
J. Population Interactions	517
K. Competition	519
Laboratory Investigation: Constructing a Food Web	521
Review Activities:	
Important Terms	523
Skill Practice	525
Chapter 29: Quiz	527
Chapter 30: Humans and the Environment	529
A. Human Requirements	529
B. Human Interactions	529
C. Human Population Growth	530
D. Environmental Pollution	531
E. Negative Human Activities	532
F. Overhunting and Exploitation	532
G. Importation of Organisms	533
H. Poor Land Management	534
I. Use of Biocides	534
J. Waste Disposal	535
K. Improving the Environment	535
L. Environmental Laws	536
M. Conservation of Natural Resources	536
N. Wildlife Preservation	537
O. Biological Pest Control	538
Laboratory Investigation Soil Conservation	539
Review Activities:	
Important Terms	541
Skill Practice	543
Crossword Puzzle	544
Chapter 30: Quiz	545
Unit Eight Test	547
Index	551
Appendix: Teacher’s Guide	559
• Laboratory Materials	
• Correlation With:	
<i>New York State’s Living Environment Core Curriculum</i>	563
